1. Healthy Educational Environment Amongst Female Students.

The institute is persistently striving for providing higher education to rural masses in general and girls in particular. As compared to boys, it had been difficult for girls to continue their higher education after twelfth. The reason is the conventional mindset of the parents towards the education of girl students. Even today most of the families treat their girls as burden to them. Hence parents think to marry their daughters as early as possible. The college has become somewhat successful in persuading the mindset of such parents. As a result the number of girl students admitted to UG programme throughout the years is more than boys. The parents have been assured by the college administration that their wards are safe in the college campus and it is the responsibility of the administration to ensure the safety of the girls and provide them fearless atmosphere. The general presence of the girls in college campus is more than boys. The participation of the girls in curricular, extra- curricular and sports activities is relatively more than boys.

The institution geared co-curricular, extension, research and other such activities in collaboration with *Gram panchayats*, Municipal Corporation, and other Govt. and Non-Govt. organizations that contribute to the accomplishment of the vision/ mission of the institution.

Significantly the activities run by various department of college which create special attachment to the rural society & parents of female students which create a healthy educational environment in the rural society. This is very useful in admission percentage of female students in the college. Presence and participation of female students and its various activities run by college is also higher than the male students. Overall result of this, female students enrolled for higher education and create carrier opportunities higher than male students.

4. Late Rajabhau Kadam State Level Elocution Competition

‘Late Rajabhau Kadam State Level Elocution Competition’

1. **Goal:** Empowering students with rhetorical competence.

2. **Aims of the Practice**

- To provide students with practical experience in the fundamental skills of public speaking.
- To give students the opportunity to meet, exchange views and form friendship with other competitors from neighboring colleges.
- To equip students with the skills of clarity of thought.
- To help students to listen to the opinions of other students and respect their views.

3. **The Context:**

The newly admitted undergraduate students hesitate to express themselves on stage. Through such activities they will get opportunity to get stage courage and express their views without fear. Earlier we had intercollegiate debate competition. Last year IQAC has decided to start elocution competition which is named after the founder president Late Rajabhau Kadam.

4. **The Practice:**

On the occasion of the silver jubilee celebration of the establishment of college, the IQAC decided to begin a state level elocution competition each year in the month of January. The topic of the event is decided in the IQAC meeting. A committee is formed to organize the event. The circular having all details about the event are circulated through social media. The prizes are attractive so that the students from faraway places will be able to participate in the event. The first prizes is of Rs 5000/-, second of Rs. 3500/- and third of Rs 2500/-. Sometimes we keep consolation three prizes in place of third prize. The participants coming from faraway places, being provided with accommodation and lunch. All these prizes are being sponsored by the faculty members. Each year new faculty initiates to sponsor the prize. Before the event many students prepare themselves for the event. They are scrutinized and only two students from each unit are allowed to participate in the final event.

5. **Evidence of the Success:**

This event has created positive atmosphere among the student community. Students of this college are preparing themselves for the various competitions held at intercollegiate level. The first competition took place on 17th January 2019 wherein 17 students participated from all over Maharashtra. The practice has helped college to gain fame and name in the region.

1. Problems Encountered:

The ratio of the students participating in such events is very low. The college needs to inspire students to participate in such events taking at inter-college level. We expect more participation of the students in forthcoming years.

13. Students Adoption Scheme

- 1. Title of the Practice:** Student Adoption Scheme
- 2. Goal:** To provide financial support to the financially weak students who are regular and sincere.
- 3. The context:** Under this scheme, each faculty of the college adopt economically backward students. Faculty provides them bus passes, pay examination & admission fees, and provide college uniforms and educational aids so that their higher education should continued with ease.
- 4. The practice:** In this practice, teachers adopt at least one economically backward student who is regular and sincere in studies during the academic year. All the faculties of the college participate in the practice and substantially contribute in the scheme. In the beginning of the year the faculty identifies the financially weak students and he/she is being admitted in the scheme. For the whole year, the student is not only supported financially but he is being mentored in respect to moral support, career opportunities, syllabus, exam pattern etc.
- 5. Evidence of success:** The help is in the form of admission fees, exam Fees, providing bus passes, study material etc. Students are being assisted as per their need. The coordinator of the scheme maintains all the records of the participants and the beneficiary students. The benefited students successively passed in their respective classes with good marks. Statistics of the practice is as following:
- 6. Problems encountered and resources required-** As the Student strength goes on increasing every year and most of the students from this region come from financially poor family, we are unable to accommodate all the students in the scheme. Efforts are being taken to accommodate them various scholarship schemes applicable to them.
