Parbhani**

*** * ***

Corona virus disease (COVID-19) is an infectious disease caused by a newly discovered corona virus. The outbreak of corona virus disease-2019 (COVID-19) first emerged at the end of December 2019, from the Hunan seafood market in Wuhan City of China, and declared as an international public health emergency in a couple of weeks by the World Health Organization (WHO, 2020) [1]

Most people infected with the COVID-19 virus will experience mild to moderate respiratory illness and recover without requiring special treatment. Older people and those with underlying medical problems like cardiovascular disease, diabetes, chronic respiratory disease, and cancer are more likely to develop serious illness (WHO). Prime Minister Modi announced the first 21 days of India's lockdown on 24 March.

'COVID-19 Pandemic and India' is a book which focuses on the different situations in COVID-19 Pandemic specially with reference to the India. Situation will change, people will forget and will engage in their routine work but this book will helpful to the people to understand how it has impacted on the life of Indian people.
