## Role of College Librarian in the Information Literacy in Digital Age

Dr. Sarkale A.B

Librarian, LRW (ACS) College Sonpeth Dist. Parbhani

<mailto:anantsarkale@gmail.com>

### Abstract:

Information Literacy is set of abilities to recognize need of information, to locate to identify appropriate information sources and to know how to search contained those sources, to evaluate quality of information obtained and finally to skill the organize information with the help using presentation technique. The present paper includes a study of college students and role of librarian to enhance library utilities through types of services with the help of information literacy program.

**Keywords:** Information Literacy, Digital era, Users

### Introduction:

In the college library, librarians collect the information material in print media as well as book, journals, reports, directory Gazetteer, Biography, Autobiography, cyclopedia and Encyclopedia standards, patents etc. and electronic media for the use of their users. They do various processes on the material to bring on to light on the library collection through and should make every effect. So the resources can reach to the users. The library resources can be put to maximum use by the provision of information literacy program.

### Information Literacy:

Information literacy defines as an instruction given to reader to help them to make best use of the library. User education is concern with the whole information and communication process and our part of this involves the total interactions of the user with literacy. In short information Literacy nothing out educates the library user regarding the use of the library resources. Information Literacy is critical issue for 21<sup>st</sup> century of keen importance to all educational stakeholders, including librarians, administrators, faculty members and students. The information explosion subsequently gives birth to the concepts of information literacy.

### Objectives of Study:

- To find out whether the students know about information services provided by the library.
- To find out which type of information services provided by the college librarians.
- To know the role of college librarians play in information program for the students.

### Need of Information Literacy:

- Rapid increase in the stream of information due to the information explosion
- Advent of information and communication technologies.

- Number of information resources in various forms and format.
- Availability of information is free of any geographical boundaries
- Abundance of information makes it difficult to find exact information.
- Wide dispersal of information.
- Emergence of interdisciplinary subjects.
- Complexity of search tools.
- To create knowledge society innovations and E-governance.
- Need for lifelong learning.
- Information kiosks learning resources center etc. play key role in imparting information.

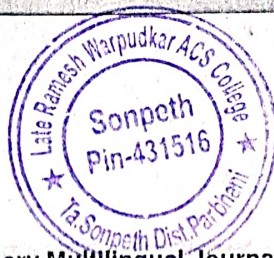

### Role of College Librarian In Information Literacy:

Librarians, seeking greater participation in the educational process saw a unique opportunity to contribute. They could, concurrent with their existing custodial duties of collecting, organizing and providing access to the multiple forms and sources of information help to students learn, know and do.

### Information Literacy Program for the Students In the College Library:

Students are the important factor of education system so the library play vital role for the students.

1. **Orientation program for students:** The Library should offer orientation program to the students. The main idea behind is that the users should know all details about the availability library and information sources in order to use of library sources efficiently. It enhance the importance of library
2. **Library Brochures:** Publication of library handbook brochures, which includes detailed information regarding library. Sometimes have to publish library manual, Rules 'know your library' etc. distributing among the users. It will be helpful to know detailed information about library.
3. **College Prospectus:** Responsibilities of librarian to inclusion of detailed information regarding procedure, process, collection, services, college rules and etiquettes about the library facilities etc. in college prospectus which is updated yearly.
4. **E-Information Literacy:** To give the information about the network technology with the multi-media, digital delivery and information about OPAC, online sources E-Journals, E-books various e-based teaching and learning available sources e.g. National Digital Library, N-list, E-PG Path Shala etc.

## Scholars Impact: International Multidisciplinary Multilingual Journal Of Contemporary Research

5. **Provision of extension Services:** There are number of extension services which help information literacy program me that is as below:

- Arranging Book Exhibition for more aware and familiar with the books
- Displays services whenever on opportunity arise such as national local event special courses lectures of special subjects the relevant book should be gathered together kept on display or the local point in the library.
- To display the newspaper clippings of various competitive exams for encouraging students.
- To provide internet facility to the students.
- To provide computer training programs in the library for students and researchers.
- Helping the students for completion of their research work
- Display of writing appeared in periodicals newspapers, written by the students

- To display the new arrival books in the library.
